

MARK ALDRIN QUIPIT

Santa Rosa, Laguna
quipit.ma@gmail.com | 09511390586

Motivated Information Technology student with hands-on experience in full-stack web development using modern technologies such as React, TypeScript, Node.js, and PostgreSQL. Passionate about developing real-world solutions, improving system design, and continuously learning industry best practices. Seeking an opportunity to contribute to a dynamic development team while further enhancing technical and problem-solving skills.

AREA OF EXPERTISE

Full-Stack	Node.js	Drizzle	Tailwind
React	Express	MySQL	Testing
TypeScript	PostgreSQL	UI/UX	Optimization

KEY ACHIEVEMENTS

- Developed a full-stack eCommerce system using React, TypeScript, Node.js, and PostgreSQL, implementing authentication, product management, and responsive UI components.
- Led backend development of a School Management System (SMS) with 100+ API endpoints, implementing RBAC, JWT authentication, and modular architecture.
- Designed and implemented a centralized settings system with role-based configurations and scalable API structure.
- Built reusable frontend components and improved UI/UX consistency across multiple projects using Tailwind CSS and component-based architecture.
- Collaborated in agile team environments, contributing to system design decisions, feature implementation, and code reviews.
- Assisted peers in debugging and technical problem-solving, strengthening communication and leadership skills.

EDUCATION

Bachelor of Science in Information Technology **2022 - Current**
University of Cabuyao

- Dean's List, 1st Year (Both Semesters)
- Dean's List, 2nd Year (Second Semester)
- Dean's List, 3rd Year (Second Semester)

Senior High School (STEM Strand) **2019 - 2020**
University of Cabuyao

- With Honors, Grade 11 & 12

LATEST SEMINAR ATTENDED

AWS Student Community Day - Southfest **February 2026**
AWS Student Community

AWS Cloud Club Trailhead **August 2025**
University of Cabuyao Event

ADDITIONAL INFORMATION

- Technical Skills:** Git/GitHub, Postman
- Soft Skills:** Problem-solving and Critical Thinking, Teamwork & Collaboration, Adaptability, Communication & Presentation
- Interests:** Cloud Computing, Full-Stack Development, Cybersecurity, Tech Community Engagement
